

2013.59 E

242863

To the Public Service
Commission of South Carolina.

Didn't Duke Energy just
get an increase. They got
half of what they asked for,
now they want the other half.

They don't need an increase,
you can't get Duke Energy to
do anything now. Their service
is getting to be unaffordable.

The Commission needs to
deny this, but will probably
give them their work for
an increase
